

4.4.2 Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms.

All the students are attracted by the excellent infrastructure and academic facilities in the campus. We have well built safe and ventilated classrooms to accommodate the student strength in the college for all the three streams. The well built auditorium and two ICT enabled conference and seminar halls serve the purpose of ICT needs for higher studies. Well - equipped laboratories in the Science wing help to learn the nuances of the subjects thoroughly. The staff and students make optimum use of the sports facilities available in the campus.

Well trained sports officers are determined to create awareness for health consciousness among the stake holders. Equipment rich sports complex helps the students to sharpen their skills in various indoor and outdoor games. All the sports activities are carried on the wide sports ground.

The main library consists of number of texts and reference books in almost all the program me taught in the college. Almost all the daily news papers are circulated in the library which keeps the students updated and organized. The remarkable facility of Inlibnet provides accession to thousand innumerable books to quench the thirst for knowledge.

The Computer section has advanced technological support with latest models of computer sets. Many online exams are conducted in the college. Students sharpen their ICT skills enabling themselves to cope up with the changing world.

The college has the facility of accommodation for staff and girl students. As the college is in the tribal region many girl students are migrating towards the district places due to awareness and awakening and scope to explore. We provide the facility of hundred seater girls' hostel in the campus with nominal charges. There is facility of staff quarters and principal bungalow in the campus in addition to the grand infrastructure.
